PREFACE.

Raleigh, the capital of the State of North Carolina, was founded in 1792, and named for Sir Walter Raleigh, the famous knight and courtier who during the reign of Queen Elizabeth sent the first expedition into what is now the territory of the United States, this having made the first settlement on Roanoke Island, near the coast, eastward from Raleigh. The land on which Raleigh now stands was purchased by a commission, named by the legislature, from Joel Lane, and the streets were set apart and also five public squares, the commission having given names to all of these. The State Capitol stand in Union Square; the Governor's Mansion in Burke Square; the State School for the White Blind in Caswell Square, and the other two squares, Nash and Moore; are used as parks. The streets are at right angles and these and the squares are the property of the State and not of the city. The four principal streets, 99 feet wide, are named after former capitals, New Bern, Halifax, Fayetteville and Hillsboro, and point in the direction of those places; the other streets being 66 feet wide. The state also owns the granite quarry from which the stone used in constructing the present capitol was taken, this building having been completed in 1840.

Raleigh is unique in that the site purchased by the State for the capital, its streets and parks within the boundary, are State and not city property. It is unique in another respect; it is the only city which during the war between the States was formally surrendered to the Federal authorities; this surrender having been made by commissioners who met General Sherman, commander of the United States forces, in April, 1865, a few miles south of the city.

The location of Raleigh is admirable, being on what may be termed the first step of the plateau which marks the boundary between the coastal-plain and the lower

piedmont region, so that on the eastward the pine forests extend to the sea, while westward there is rolling land, largely covered by hard-wood timber. The country around Raleigh is particularly attractive, and is well watered both by streams and springs. The city's altitude above sea level is 365 feet, at the capitol building. The city gets its supply of water, which is healthful, from a short stream, a mile from the boundary; the water-shed being carefully policed and under the jurisdiction of the city. The sewage is carried into streams running north and south of the city, by natural fall.

The population of the city was 19,218, by the census of 1910, there being four square miles within the corporate limits, which were extended in 1908. Of the population sixty per cent. is white and forty per cent. negro. The population increased thirty-seven per cent. during the ten years ending in 1910. There are sixty-six miles of streets, of which ten miles are paved; forty four miles of water main, with 2,000 water-takers; 2,000 miles of telephone line, with 2,400 telephones installed; post office receipts $115,000, and postal pay rolls $1,350,000; amount of bank deposits $5,000,000, bank resources $7,000,000; assessed value of property $12,000,000. There are twenty nine schools, of various classes, from a university to the grammar schools; of these fourteen being public schools, with 5,000 children in attendance; the number of other students at other institutions being 3,500. There are four for whites, a high school and six grammar schools, and for negroes, seven grammar schools; all public. Of colleges, there are for whites, the State Agricultural and Mechanical college for men, St. Mary's, Peace and Meredith for young women, while for negroes there are Shaw and St. Augustine's. There are two business colleges, King's and Draughon's. The proportion of students in the schools of all classes here is greater as compared to the whole population than in any other city in the South.

There are sixty-seven manufacturing plants, of which seven are of textile products, the others including fertilizers, cotton oil, house building material, brick, logging-cars, boilers, agricultural implements, structural iron work, castings, galvanized iron ware, tin ware, furniture, candy, bread and crackers, washboards, ice, mattress, brooms and brushes, vehicles, harness, concrete blocks, jewlery. The increase in value of products during the ten years ending in 1910 was 119 per cent. There are seven banks and eight printing houses, and forty-two newspapers and periodicals are published here, the extent of the printing business exceeding that at any other place of this size anywhere in the South. There is one electric company, the Carolina Power and Light, with $15,000,000 capital stock, this operating the street railway and furnishing light and power to all the manufacturing plants, including cloth, hosiery, underwear and yarn mills. This company obtains water-generated electric power from its plants at Milburnie on the Neuse river, six miles distant, and at Buckhorn Falls on the Cape Fear river, twenty-six miles distant, and is completing a great plant on the Yadkin river, near Rockingham, for the transmission of power here over a line 100 miles long. This company will serve electricity to points between Raleigh and Oxford to the northward, Goldsboro to the eastward, and Fayetteville on the southward. The company has taken over the gas plants at Raleigh, Henderson, and other points. It operates in Raleigh thirteen miles of street railway and fifty cars, and has installed here an auxiliary or reserve steam power plant, so that it will have 50,000 H. P. for use by the end of 1911.

There are two telephone companies and two telegraph companies; three public libraries, containing 85,000 volumes; fifty-two State buildings, including those at the Central Hospital for the white insane

and epileptics, State prison, schools for the blind and deaf-mutes and the Agricultural and Mechanical College; the total value of all these being $3,500,000; this is not being included in the tax valuation.

There are four railways; the Southern, Seaboard Air-Line, Norfolk Southern and Raleigh and Southport. Raleigh is located midway between New York and Florida; is in close touch with all parts of the State, from the sea to the mountains, has one hundred trains daily. There are within 100 miles of Raleigh a population of 834,000; lands have doubled and in many cases trebled in value during the past five years; the country in this vicinity produces a great variety of crops, including corn, cotton, small grain, tobacco, sorghum, peas and all sorts of truck, and in the county of Wake, of which Raleigh is the county seat, the corn-growing record of the United States has been broken by the production of 226 bushels on an acre, and the cotton-growing record by the production of 3 1-2 bales to the acre.

The fire department is partly paid. The city has a remarkable record as to small loss by fire. The police protection is excellent. The city ranks first-class as to insurance rates. It has built the present year a municipal building and auditorium, of stone and brick, at a cost of $125,000, with a seating capacity of 5,000, this being one of the finest structures of its class in all the South. There are five hotels, all practically new; two built this year. The Raleigh Country Club, with a great area of field and forest, is one of the most attractive in the country, with its club house and golf links. In the city there are the Capital, Elks and Imperial Clubs. West of the city, a quarter of a mile from the boundary, is Pullen Park, containing 74 acres, with one of the largest bathing pools in the country. A new park is being laid off near the country club, containing 60 acres.

Raleigh is on the Capital Highway, the north and south line for autmobiles and other vehicles from Washington to Columbia. It is also on the Central Highway, 461 miles long, across the State from Beaufort, on the coast, to Paint Rock, on the Tennessee line.

There are three hospitals; the Rex for whites, Leonard and St. Agnes for negroes; these providing for 220 patients and all being new structures.

The mean annual temperature of Raleigh is 60 degrees; mean for summer 77 degrees; mean for winter 42 degrees; average rainfall 50 inches; average percentage of sunshine 62; the climate being that of central Spain.

The gas supply is 500,000 cubic feet daily; water supply five and a half million gallons daily. with a consumption of 1,500,000 daily; reservoir capacity two million gallons; filtering capacity two and a half million gallons.

At no capital in the country are there more buildings of institutions, etc., connected with the State Government than at Raleigh. These include the Capitol, Administration Building, Governor's Mansion, State Museum and Hall of History, Agricultural Department, State Library and Supreme Court Library. State Hospital for the Insane and Epileptics, State Prison, Agricultural and Mechanical College, State Poultry Farm, Confederate Soldiers Home, State School for the White Blind, State School for the Negro Deaf-Mutes and Blind, State Fair Grounds, State Experiment Farm.

There are two theaters; two orphanages; eleven wholesale houses, dealing chiefly in groceries, drugs and chemicals, furniture, stoves and sheet metal ware, farm implements, etc.

Any information regarding Raleigh can be promptly secured by writing the Chamber of Commerce, of which Henry E. Litchford is president and Fred. A. Olds, Secretary.

Virginia State Directory 1911

Contains a map showing all Railways and a list of Post-Offices, sketches of the principal places in the State; names and addresses of all City Functionaries; officers of Boards of Trade and Public Institutions; National, State and Private Banking Houses; Insurance, Telegraph and Express Companies; Hotels and Boarding Houses; names and addresses of Manufacturers, Mills—Corn, Flour, Grist, Saw &c.—and Owners; Mines—kind and by whom operated; and the Wholesale Traders, Jobbers, Commission Merchants, and Retail Dealers. This work contains a large list of farmers arranged by counties and classified by post-offices.

WISDOM

COMES BY HARD WORK.

Business comes after the Merchants Learn

WHAT A DIRECTORY IS.

The ONLY advertising medium that everybody has to consult.

It is in constant touch with all money spenders.

It is always where it can be referred to

It is where you find up-to-date merchants advertising.

WHAT ARE YOU?

HILL DIRECTORY COMPANY

Directory and Almanac Publishers

GENERAL OFFICES:

823 Mutual Building, RICHMOND, VA.

Long Distance Phone 3375

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.

STREET GUIDE

AND

DIRECTORY

OF

HOUSEHOLDERS

OF

Raleigh for 1911-12

The Greatest Value in

Advertising is that which is presented at the time one is ready to buy; the classifications in the City Directory are the very best forms of advertising, because they reach the buyer when he is seeking the name and address of some business house from whom he may buy.

OUT-OF-TOWN WORK SOLICITED

201-207 Governor St.
RICHMOND, VIRGINIA

If 9,896 Farmers

and planters told you that their yields per acre of cotton, corn, tobacco, wheat, fruits, peanuts, rice, sugar cane and truck crops were greatly increased and even doubled

By Using

Virginia-Carolina Fertilizers

and which they thought the best and biggest crop producers on earth—wouldn't you feel that you should, in justice to yourself, try these fertilizers and get the same increased yields on your own farm? We have many thousands of un-asked-for letters from farmers blessing the day they bought Virginia-Carolina Fertilizers. Many of these letters are in our 1910 Farmers' Year Book, which can be had free of your dealer, or by mailing us the coupon

Frank B. Simpson, Architect,
CAPITAL CLUB BUILDING RALEIGH, N. C.

IF

you are a man of large capital and not dependent at all upon your business, profession, or salary;—

and are sure that this capital will never become lost or impaired;—

or are sure that you won't die until you have accumulated a fortune;—

Then you haven't any great need for Life Assurance.

BUT

if, like the rest of mortals, you are subject to death, and to financial losses, and to depreciation of values, or if you are a salaried or a professional man whose income ceases at death

Then Life Assurance is an Absolute Necessity to you.

AND

by means of Endowment Assurance you can secure the protection of life assurance, and at the same time make provision for your own mature years.

The Equitable Life Assurance Society

Of the United States.

W. A. DAY, President, 120 Broadway, New York
J. D. BOUSHALL, General Agent, Tucker Building, Raleigh, N. C.
W. T. RODDEY, Agency Cashier.

Equitable Standard Policy.

Do you know that The Equitable Life Assurance Society of the United States issues a policy which, at maturity, instead of being paid to the beneficiary in one lump sum, provides a *monthly income* for *life*? It is called a Life Income Policy, and is well worth investigation.

Do you know that the Society has introduced a new policy of this kind, which provides a life-income not only for a man's wife or daughter, in the event of his death, but for his *own support* in after life, if he lives?

It works either way. It will protect *you* if you live. It protects your *wife* if you die. And if both live it protects both.

The Equitable Life Assurance Society

Of the United States.

W. A. DAY, President, 120 Broadway, New York
J. D. BOUSHALL, General Agent, Tucker Building, Raleigh, N. C.
W. T. RODDEY, Agency Cashier.

CAPITAL CLUB BUILDING RALEIGH, N. C.

Association of American Directory Publishers

HEADQUARTERS,
202 EAST 12TH STREET, NEW YORK.

ORGANIZED NOVEMBER, 1898

J. L. HILL, President
R. H. DONNELLEY, 1st Vice-President
W. H. LEE, 2d Vice-President
W. H. BATES, Secretary and Treas.

TRUSTEES

WM. E. MURDOCK, Boston
R. H. DONNELLEY, Chicago
A. V. WILLIAMS, Cincinnati
J. L. HILL, Richmond, Va.
R. L. POLK, Detroit
W. H. BATES, New York
W. H. LEE, New Haven
E. M. GOULD, St. Louis
W. G. TORCHIANA, Philadelphia

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST:—To improve the directory business by the interchange of ideas, and by the exchange of competent employees,

SECOND:—To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD:—To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH:—For the mutual advancement of the established and prospective interests of all who may become members of the Association.

$100 REWARD

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided the conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph W. H. Bates, Secretary, 202 East 12th Street, New York.
